

ELA sanitary container premium

Container with WC, shower or a combination, width 3 metre

ela[container]

Brief Description

Sanitary facilities are needed wherever people live and work. The ELA premium sanitary containers, which are 3 metres wide, achieve this quickly and with a minimum of fuss.

The 3-metre wide ELA sanitary containers are available in various basic configurations. The 20-foot premium sanitary container is available in three basic configurations with several floor plans fully equipped with WCs and urinals, hand washbasins or showers to choose from. Combinations of WCs with showers, only WCs (up to five) or only showers (up to five) pose no problems. A 'black and white' version of the container with shower and WC is also available.

Electric heating and frost monitors ensure pleasant temperatures even in the depths of winter. And both the plastic-coated walls and the galvanised floor with protective coating are hygienic and easy to maintain.

Suitable waste water tanks can be added to ELA sanitary containers as needed.

The ELA premium sanitary containers meet the high quality standards of ELA: certified quality – made in Germany.

ELA sanitary container

Container with WC, shower or a combination, width 2.435 metre

ela[container]

Brief Description

Temporary workstations and living spaces need suitable sanitary facilities. ELA sanitary containers ensure that such facilities can be added with ease. These containers can also be reliably used as a public toilet or as a washroom on campsites.

The 2.5-metre wide ELA sanitary containers are available in various basic configurations. The 20-foot ELA sanitary containers feature combinations with WCs and showers, only showers (up to five) or only WCs (up to four). The shorter 10-foot ELA sanitary containers feature configurations with WC sections for men and women, as well as a combination of shower and WC.

Thanks to the plastic-coated walls and the galvanised floor with protective coating, the rooms are extremely hygienic and easy to maintain. And they are also particularly comfortable. Fan heaters or electric convectors and hot water tanks ensure hot water and pleasant room temperatures. Partition walls and room dividers generate the necessary level of privacy. Suitable waste water tanks can be added to ELA sanitary containers as needed.

The ELA sanitary container meets the high quality standards of ELA: certified quality – made in Germany.
